

Chernivtsi special

You are so far away but so often in my mind

“I went home with a lot of inspiration and commitment”

Chernivtsi is the place I visited last week. A long journey with airplane and nighttrain brought me to the Yuriy Fedkovych Chernivtsi National University. There I met the representatives of our EANET partners and I enjoyed seeing them all! We exchanged information and worked on the different challenges we are confronted with. I think again we made several important steps to make this project work and to get things done. I went home with a lot of *inspiration* and *commitment* to work on this project with even *more energy*. Thanks to everyone present! I'm looking forward to our next meeting and in the meantime will *search for connections* to help our project to become a success! Greetings!

Mary Benjamins delivered the first small documentary about EUNET

In Chernivtsi we saw at both PSC and Training the documentary Mary made. If you want to see it again and want to spread it for internal and external stakeholders use the link below.

New personal record for Michael

Never in my life I had 327 likes on a picture I was on, but thanks to the building behind and especially Maka Samushia I have a new records ;-)

Okay, it is just fun to have likes on a photo but imagine how big and valuable our network will be when we are connected.

“Crazy” entrepreneur from Berlin trained EANET staff

Oliver Schmidt member of Profund joint EANET staff for dinner during the meeting in Berlin in November. After that he was so enthusiastic that he offered his services for free to our project! Oliver introduced Effectuation to participants and coached some teams.
